

# Can Media Literacy help balance the P's?

Conference: Protection of children's rights online & offline

15/11/2018 Budapest

- [Andy.Demeulenaere@mediawijs.be](mailto:Andy.Demeulenaere@mediawijs.be), coordinator @
- Mediawijs, Flemish Knowledge Centre on Digital and Media Literacy since 2013
  - Flemish: north half of Belgium, government funded
  - Knowledge Centre: research and best practice based supporting the field in reaching the public
  - Digital and Media Literacy: two sides of the same coin

**“For a young person cannot judge what is allegorical and what is literal;  
Anything that he receives into his mind at that age is likely to become indelible and unalterable;  
And therefore it is most important that the tales which the young first hear should be models of virtuous thoughts.”**

**Socrates (according to Plato in The Republic)**

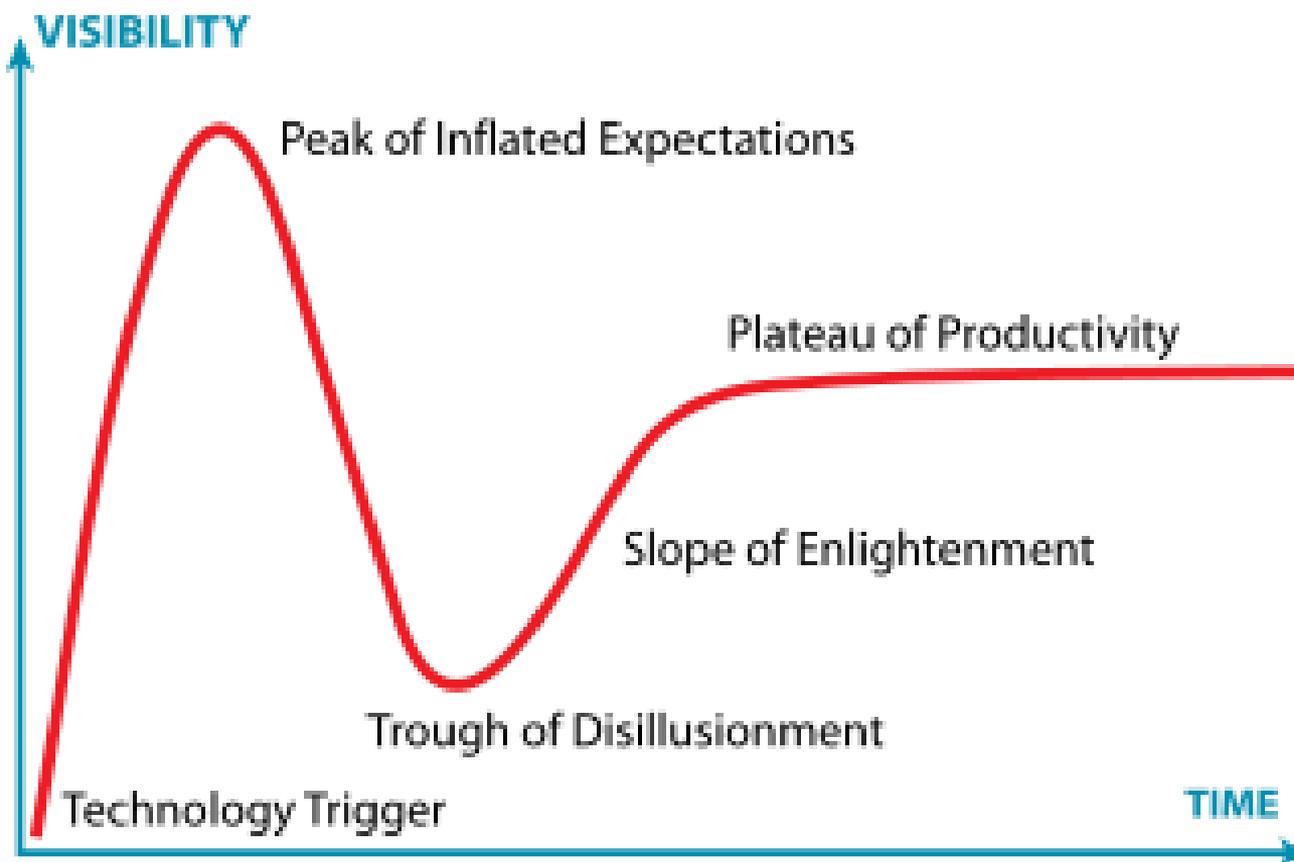

## Televisitis

- Watching entertainment instead of studying, sleeping ...
- I couldn't stand missing it ...
- Learning swear words
- It's easy, it's there, it keeps them of the streets

- **1997: Nicholas Negroponte, MIT:**  
**Internet will bring world peace by breaking down national borders.**

*“Twenty years from now children (who are used to finding out about other countries through the click of a mouse) are not going to know what nationalism is.”*

- **2015: Zuckerberg to UN: Internet access can help bring world peace**

## Risks or moral panic?

“If the offline were like the online, it would be like knowing, only, how many children report crossing a road”

(Sonia Livingstone)

- Harmful/hateful content, cyberbullying, sextortion, cybercrime, grooming, digibesitas ...

## Participation paradox:

“Those we think could benefit the most, participate in it the least”

- Digital divide - e-inclusion
- Access
- (E)-skills
- Quality of use?

# Media Literacy Concept paper Flemish Government (2012)

*'(...) the whole of knowledge, skills and attitudes that allows citizens to deal with the complex, changing and mediatised world in a conscious and critical way. It is the ability to use media in an active and creative way, aimed at societal participation' (Lieten & Smet, 2012).*

- Modern & open vision on media literacy
  - All media - classic and new
  - Attention to, but not focus on risks
  - Focus on active and creative use as well as critical and conscious understanding
  - Aimed at participation in society → Is this too functional?

Why?  
To strive for  
happy  
citizens!
